EXAMPLE INTER AND INTRA ORGANIZATION

FIG. 67 is a schematic diagram of an international trading example. The diagram illustrates a central transaction authority (700) interacting with three regional trading hubs (1106A, 1106B, 1106C) and their respective local markets (1108A, 1108B, 1108C). The transaction authority (700) is depicted as a building with a clock tower, and the regional hubs are shown as buildings with multiple windows. The local markets are represented by classical structures with columns. Arrows indicate the flow of information or transactions between the central authority and the regional hubs. The diagram also shows three storage containers (152a, 152b, 152c) and a central storage unit (1110C) connected to the regional hubs.
